Unfortunately I have been suffering from focal dystonia since begin 2016. Of course I tried physical therapy which didn't help... But I tried some of your [technique] lessons (I had teachers before but I was never taught your techniques) and to my big surprise the nasty feeling in the back of my right hand which pulls my index finger upward was gone! So now I practice your lessons. Anyway, I am very happy to have found you on the internet. Thanks very much! -Arnoud Reinders I started as a folk guitarist, then fell in love with classical guitar in my 20's. Despite a lot of practice and schooling, I still couldn't get my music to flow well. I struggled with excess tension. My music sounded forced. And my hands and body were often sore. I got frustrated, and couldn't see the way forward. Then, over the next decade, I studied with two other stellar teachers - one focused on the technical movements, and one on the musical (he was a concert pianist). In time, I came to discover a new set of formulas and movements. These brought new life and vitality to my practice. Now I help guitarists find more comfort and flow in their music, so they play more beautifully. Click here for a sample formula. Those videos on practicing the piece were just awesome. Allen! I've always thought that learning songs might be something completely different than practicing exercises, but the way you teach it makes it much easier than I thought. I'm positive that joining the Woodshed has been the best investment I've ever done for learning the classical guitar. Thank you so much for these lessons...Ulisses Alexandre Alves This is my fingerstyle guitar arrangement of this traditional folk song well known in the English-speaking world.
