In addition, you can bank on-the-go by downloading the DBS IDEAL Mobile app, available on Google Play Store for Android and App Store for iOS. Can I access DBS IDEAL from overseas? DBS IDEAL can be accessed from anywhere in the world, as long as you have an Internet connection. Download the new DBS IDEAL digital token+ to enjoy a seamless login, and tap and swipe authentication experience for transactions on DBS IDEAL desktop and its mobile app. How do I perform basic account management tasks? You can download this form and apply for the DBS IDEAL Customer Self-Administration module to manage your company's users and profile online. Add, remove or update users Update authorisation policies & manage company profile Modify account settings Request for new user login PIN Unlock user access Unlock or replace security devices If you want to change other company-specific details, download the maintenance form and complete the relevant pages in order to perform the following account management tasks: Update account numbers Account setting and instruction (parent-subsidiary setup) Will my DBS IDEAL access be suspended if I have not logged into DBS IDEAL for a while? Your DBS IDEAL user access will be suspended if you don't login for 12 consecutive months. You can reactivate your DBS IDEAL user accesses via the IDEAL Customer Self-Administration module. If you do not login for 18 consecutive months, you will need to re-create a new user ID via our IDEAL Self-Administration module or submit a DBS IDEAL maintenance form. How do I terminate my DBS IDEAL access? To terminate your DBS IDEAL access, you will need to provide us with an official letter detailing your request using your company's letterhead template. This letter must be signed by your company's authorised signatories. Do I need to submit an additional form to register for DBS IDEAL Mobile? You do not need to submit an additional form. Simply download and install the DBS IDEAL Mobile app via the Google Play Store for Android and App Store for iOS. Find out more about DBS IDEAL Mobile here. I have just received all my DBS IDEAL login credentials. Can I login to DBS IDEAL Mobile immediately? You are recommended to login to DBS IDEAL mobile first, and complete the installation of DBS IDEAL digital token+. After doing so, you will be able to use your digital token for subsequent logins on both your desktop and mobile for authentication purposes. Do I need my physical token to access DBS IDEAL Mobile? You do not need a physical token if you would like to view account balances or access the DBS IDEAL dashboard. However, you will need to install the DBS IDEAL digital token+ on your mobile to complete 2-Factor-Authentication (2FA) if you would like to use other mobile functions. What are the services available on DBS IDEAL Mobile? A variety of online banking services are available on DBS IDEAL Mobile. You can also make immediate payments with Scan & Pay with PayNow using IDEAL Mobile. How to Set Up DBS IDEAL Access for the First Time Please ensure that you have already applied to use DBS IDEAL. Please refer to the email sent from which contains the details that you can use to set up your IDEAL account. When using online banking, all authentication processes require a mobile device, which acts as a digital token. You will require a mobile device (mobile phone or tablet) to verify your logins and approvals. Download the DBS IDEAL mobile app on the mobile device. • Android: Go to Google Play Store. Or scan this QR code to go there: • iOS: Go to App Store. Or scan this QR code to go there: • Huawei: Go to App Gallery for Huawei. Or scan this QR code to go there: If you are setting up an IDEAL account for the first time using this email address Open the DBS IDEAL mobile app and select Log in to DBS IDEAL. Enter your registered email address, then select Log in with email. Enter the 6-digit One-Time Password (OTP) sent to your registered email address. Enter your registered mobile number and the 6-digit One-Time Password (OTP) sent to it. Set a login password. Set a 6-digit Digital Token PIN. When approving transactions in future, you will be asked to enter the PIN for greater security. We highly recommend you set up biometric authentication on your device for greater security and ease of use. If you are setting up an IDEAL account using an email address that is already used for another account. You will receive an email sent from and its subject is 'Welcome to DBS IDEAL'. It contains a One-Time Registration Code (OTRC) and setup instructions. The code is valid for 30 days, so please set up your account as soon as possible. Open the DBS IDEAL mobile app. Select Log in to DBS IDEAL, then Log in with organization ID. Enter your Organisation ID, User ID and One-Time Registration Code (OTRC) in the PDF file attached in the email, eWelcome Letter. Enter the 6-digit One Time Password (OTP) sent to your registered email address. Enter your registered mobile number and the 6-digit One Time Password (OTP) sent to it. Set a login password. Set a 6-digit Digital Token PIN. When approving transactions in future, you will be asked to enter the PIN for greater security. We highly recommend you set up biometric authentication on your device for greater security and ease of use. After your digital token is set up on a device, there will be a 12-hour period when high-risk transactions cannot be done. These include: Add or edit a payee Change contact information If your account is compromised, this period can help you detect unusual activities on your account in time. 1/6 1 1 2 1 Organisation ID and User ID are found in the Welcome Letter. 2 PIN is found in the PIN Mailer mailed separately. Your chosen PIN needs to be between 6 to 9 digits. Your PIN cannot contain 3 consecutive identical digits. Your PIN also cannot contain running numbers. Serial number can be found on the back of your Security Device. Omit dashes when entering serial number. Press once on your device to obtain the SAC. All of your banking needs, available on your phone Easier login with DBS IDEAL digital token+. You can now log into DBS IDEAL without a physical token and manual OTP. Simply tap and swipe to authenticate your login for desktop or mobile usage. Balances, fixed deposits, and loan enquiries Check your account details, incoming funds, Fixed Deposits and Loan details to better manage your company's cash flow. Payment initiation and authorisation Make payments quickly and approve them promptly on DBS IDEAL anytime, anywhere. Make FX contract bookings on-the-go to catch the market trend. You can book outright and time option contracts directly from DBS IDEAL Mobile. Use your mobile phone to scan and pay directly to your business partner with DBS PayNow Corporate. Sign up for DBS IDEAL and download IDEAL mobile banking app. IDEAL user Download DBS IDEAL Mobile for your first-time login and enjoy the convenience of DBS IDEAL digital token+. Click here for Security Alerts & News. Click here for Security Guide on Malware, Jailbroken or Rooted Devices, and Mobile Threats Security Guidelines for Uses of DBS IDEAL Online Banking Services: You should not disclose your IDs or pin (login pin, token pin or any other pins used to access our Internet service) to any third party. No one at DBS Bank (Hong Kong) Limited will ever ask you for your login or any other pins, whether at branches, by telephone, by e-mail or by written request. Please destroy the original printed copy of the pin and do not write down or record the IDs/pin. You should choose pins that are difficult to guess. Do not choose pins for DBS IDEAL that associate with anything personal such as names, birthdays, telephone numbers or other familiar words. For example, you should set the format of pins to combinations including both numeric and alphabetic characters. This makes it harder to guess the pins. Moreover, you should not use the same IDs and pin for the access to other internet services. You should change your initial pins when you first access the DBS IDEAL system. You should change the login pin and token pin periodically. You should notify us as soon as possible if you think that your login credentials, pins, tokens, or devices to access our internet service have been compromised, lost or stolen, or any unauthorized transactions have been made on your accounts. Once you report a security incident, we may promptly suspend or terminate the affected access and strive to stop the outstanding instructions on DBS IDEAL. You should not leave your computers, token or any terminals, on which you have logged on our Internet service unattended. If you are provided with token for access to our Internet service, please lock your tokens in a safe place. Once you have finished using our Internet service, please promptly log out from the service. If the computer used to access our Internet service is likely to be shared with others, you should exercise care. For instance, you should remove the temporary files stored in the memory or in the hard disks of such computer during usage of our Internet service, as the temporary files may contain sensitive information such as account numbers. You must log on only at our official website for access to our Internet services. Never access our Internet service by using hot-links e.g. from other websites or from e-mails sent to you - these could easily be fake. You should access our official website through typing the authentic website address on the address bar of the browser or by bookmarking the genuine website and using that for subsequent access. You may verify that the Internet address is the genuine DBS' website by double clicking the 'lock' icon at the bottom bar of the screen to check the security certificate of DBS. You should not enter any information (including your ID, PIN and token One-Time-Password) to the website of the bank suspicious such as unusual screens pop up and/or your computer responds unusually slow, log out from that website immediately, scan your computer and report to us. You should not log on to our Internet service using a publicly available computer e.g. at cyber cafés. Such computers may have hacker programs or otherwise allow other persons to access personal/account information. Do not enter challenge code into your security device if you did not perform any financial transaction(s) in your account. Please note that during the log in process, you will never be asked to input a Challenge/Response. System generated post authorisation SMS and Email alerts will be sent to your registered mobile phone number and Email address within few minutes upon high-risk transactions are approved. You should make sure your mobile number and email address on your IDEAL profile is up-to-date to receive important SMS and email notifications from us in a timely manner. You should avoid your unauthorised capturing of your pins by attackers. For instance, you should exercise extra care in handling doubtful e-mails received or accessing suspicious websites because attackers may make use of these channels to secretly install undetected programs to capture your keystrokes about the pins. You should always use the latest recommended Internet browser to ensure that they are using the most updated security features from time to time. You should clear your browser's cache after each session so that the account information is removed, especially if you are using a shared PC. You should avoid storing PIN/pin when using any browser. In Microsoft Internet Explorer 8, the "AutoComplete" function stores and lists possible matches from entries that you have typed previously. You can prevent any pins (including your PIN) from being stored e.g. (in the case of Internet Explorer 6 by de-activating the "AutoComplete" function: Launch your Internet Explorer 8 and click on "Tools" >> "Internet Options" >> "Content" Under "Personal Information", click on "AutoComplete". Uncheck "Usernames and password on forms", and click on "Clear Passwords", check "Passwords" and click on "Delete". Click on "OK" to save the changes. You should regularly check your account balances and statements to identify unusual transactions. You should make sure your personal firewall software and / or anti-virus software is in good state. Regularly download updates to your anti-virus software, operating system and Internet browser. You should follow our website login instructions and security tips published by us when conducting any financial transactions. Log in to IDEAL regularly to ensure that your credentials are valid and active. For security reasons, we may revoke access to IDEAL if your authorised representatives do not log in to the system for more than a year. Note: Visit the DBS Security website for more information including the latest news and tips to help enhance your online banking security. Click here to download Hong Kong Monetary Authority's e-Leaflet - Smart Tips on Using Internet Banking Services. Click here to read "How to Bank Safely" When do I submit the DBS IDEAL application form?
